GAIN CLARITY AND INSIGHT INTO YOUR FLEET

Focused expertise

As a ship owner / manager who needs to reduce time and cost on condition inspections whilst being concerned about an increasing complexity of demands, new regulations and digitalisation, our unrivalled inspection service with market comparisons, benchmarking and analysis will provide you with the transparency you require to make the right decisions. We are the market leader in asset integrity inspections, including condition inspections. We have highly experienced and competent surveyors with experience across a broad range of vessel types and we produce thousands of inspection reports every year. Let this deep experience and knowledge work as an advantage for your business.

Leverage leading resources

Save time and cost

With 500+ surveyors around the world, our extensive global network is on hand to mobilise quickly at the location you need, reducing your in-house travel costs and enabling you to prioritise your team's commitments elsewhere. We are committed to delivering reports within a quick turnaround time with additional options for fast tracking.

Achieve your carbon goals

As a carbon-neutral business, we are proud to deliver sustainable inspections and our focus on carbon reporting across all inspection activity provides us numerous opportunities to improve our impacts environmentally and to assist you achieve your own carbon goals.

Deploy the Idwal Grade®

Every inspection we complete receives an Idwal Grade. This is an industry recognised measure of asset integrity programmatically calculated from 500+ data points on board that ensures reports are consistent, accurate and free from bias and will show you where your vessels are in line with global standards.

Benchmark in-house inspections

Because every inspection we complete receives an Idwal Grade, we can provide more context on the condition of your vessel than any other inspection provider. Even with your own in-house team, intermittent use of our inspections will ensure your assessments are in line with global standards and provide invaluable transparency to reassure your stakeholders.

All Idwal inspection reports include:

- The Idwal Grade for easy visualisation of the vessel's integrity.
- EEXI and CII scores to understand the vessel in relation to decarbonisation targets.
- Tailored contextual detail on the integrity of each vessel inspected in relation to the market

The Idwal Grade®

A reliable numerical condition assessment grade is essential to ensure the results of a ship condition assessment can be interpreted by all levels of customer competencies, from the boardroom right through to operational and functional staff.

Consistent

The Idwal Grade is algorithmically generated, making it the industry's only consistent source of ship condition data.

Objective

The Idwal Grade brings a level of objectivity to the "art" of surveying and removes subjective opinions and minimises errors.

Accurate

The Idwal Grade has been used in over 5000 ship inspections and is highly accurate.

Save money & time

Idwal offers a range of additional services that will help you optimise resources and gain valuable insights into the condition of your vessels in relation to key requirements or as benchmarking tools:

Fast-track Reports

Class Record Report

Sustainability Reports

Data Insights and Comparison

Condition Adjust Valuations

About Idwal

Idwal is a global leader in vessel inspections, benchmarking and analysis, driving asset integrity, sustainability and transparency in the maritime industry. Founded in 2010, Idwal's HQ is in Cardiff, UK, with offices in Shanghai, Tokyo and Athens, and with an extensive surveyor network around the globe.

We are built on quality, integrity, sustainability and innovation, and we are extremely proud to run a carbon neutral business.

At Idwal, we are extremely proud to run a carbon neutral business and to provide the industry's first carbon neutral inspections. Idwal has been Carbon Neutral since 2021 and is audited by Carbon Footprint Ltd. Operating internationally with an extensive global surveyor network provides us numerous opportunities to improve our impacts environmentally and socially.
